Alternate power

From traditional methods such as horse power to the more contemporary use of solar paneling, many Amish farmers are using environmentally friendly methods to produce energy simply because it makes sense and accords with their lifestyle.

Where: Various rural areas of Amish Country.

When: Spring through fall, when plowing, planting and harvesting are taking place.

Suggested interview: Daniel Wengerd, of Pioneer Equipment, a company that manufactures plows and other machinery for horse farming

Suggested photography: Horse farming during the summer. Solar panel technology at any of the local Amish homes.
